REMARKS

In an office action mailed on 01/22/2008, claims 1, 5-13, 18-20, 22, and 23 are rejected as unpatentable over the APA in view of Edmon, US 2004/0042444; claims 2-4, 14-17, and 21 would be allowed if re-written in independent form including all the limitations of the base and intervening claims. The office action is made final, and therefore this response is submitted under 37 CFR 1.116.

The Applicant has amended the independent claims to incorporate the language of dependent claims which the Examiner indicated would place the application in condition for allowance. For example, claim 1 is amended to include the limitations of claim 2, and claim 2 is cancelled. Claim 12 is amended to include the limitations of claim 14, and claim 14 is cancelled. Claim 19 is amended to include the limitations of claim 21, and claim 21 is cancelled. Claim 23 is a system claim including features similar to those of claim 12 regarding operation of the server. Claim 23 is amended to include limitations of claim 14 on the operation of the server, which should be sufficient to place claim 23 in condition for allowance, under similar reasons as for claim 12.

Thus, the above amendments place the application in condition for allowance. The Applicant respectfully requests that this Response be entered into the record, and that a Notice of Allowability be issued covering the pending claims. If the Examiner believes that a telephone interview or Examiner's amendment would in any way advance the present application toward full allowance, please contact the undersigned.
